

GREECE IS
BLOCKADED

Entente Allies Have Com-
menced a Commercial
Movement

PRESSURE USED
TO FORCE DECISION

Serbian Reported to Have
Defeated Bulgarians

Notwithstanding the situation created by the announcement that a commercial blockade of Greece by the entente powers is being instituted, an Athens dispatch received by a Paris newspaper declares that the feeling in Greece is that serious consequences will be avoided. London has the report that a basis of agreement satisfactory to the allies, regarding the possible treatment by Greece of the troops of the former in Macedonia has already been reached.

News in confirmation of the report that the Serbians have won an important victory over the Bulgarians near Leskovats on the mainland railroad south of Nish comes from the Serbian minister at Athens, according to a Paris dispatch. The sinking of the British steamer Hallamshire of 4,400 tons and the Merganser of 1,900 tons, presumably by submarine attacks, is announced in London. The crews of both vessels were saved.

RETAINED GAIN BY
STOUT RESISTANCE

Italian Troops are Said to Have Advanced Considerably on Isonzo Front, Especially on Heights of Gorizia.

Rome, Sunday, via Paris, Monday, Nov. 22.—Italian troops have made an important advance on the Isonzo front, especially on the heights of Gorizia, according to an official statement issued to-day from the headquarters of the general staff. The ground gained was retained, it is claimed, in spite of vigorous Austrian counter attacks.

Further advances were also reported on the Carso plateau. The advantages recently gained on the Monte San Michal have been immediately followed up and the Austrians have been driven from trench after trench, the statement says.

GERMANY BOUND TO LOSE.

London Papers To-day Feature Statement of Ex-Premier Venizelos.

London, Nov. 22.—All the London papers made a feature of an interview given by Eleutherios Venizelos, the former Greek premier, in Athens November 8, in which he said:

"Two things seem quite clear to me—first, that Germany is bound to lose in the long run; second, that the new battle ground in the Balkans offers favorable conditions to the allies."

TURKISH TRANSPORT
CARRIED 500 DOWN

Struck Mine in Sea of Marmora and Nearly All on Board Were Drowned, Says a Relayed Report.

London, Nov. 22.—The sinking of a Turkish transport carrying 500 soldiers across the sea of Marmora is reported in a message from Zurich, forwarded from Amsterdam by the Central News. The message says the transport struck a mine and nearly all on board were drowned.

RESTRICTIONS ON GREEK TRADE.

Are Said to Have Been Imposed by Entente Allies.

London, Nov. 22.—An Athens dispatch to the Times says it is confirmed that the entente powers have imposed restrictions on Greek trade. The allied fleets, it is said, have already begun searching all steamers flying the Greek flag in the Aegean and the Mediterranean seas.

The Bucharest dispatch is authority for the statement that the first contingent of German troops has arrived at Constantinople.

PORTER CHARLTON RELEASED.

American, Who Recently Was Found Guilty of Wife Murder.

Como, Italy, via Paris, Nov. 22.—Porter Charlton, the American who recently was tried on a charge of murdering his wife and who was found guilty and sentenced to six years and eight months' imprisonment, was released yesterday. Charlton is in good health and spirits.

By reason of the time that Charlton had been under restraint and an additional one year taken from his sentence under an amnesty, Charlton was compelled to serve only 28 days in prison following his conviction and sentence.

DYNAMITE FOUND.

Discovery May Have Uncovered Plan to Kill John D. Archibald.

Tarrytown, N. Y., Nov. 22.—Four sticks of dynamite with wire and caps wrapped in paper were found Saturday on the estate of John D. Archibald, president of the Standard Oil company of New Jersey, because known yesterday, when the financier issued instructions to increase the number of guards. The local police were notified and are looking for a man who was seen last Friday near a place where the dynamite was found. The explosives were discovered near a barn by John W. Whelan, superintendent of the estate.

HOW TO RAISE
MONEY FOR THE
NATION'S DEFENSE

Will Be Indicated in Pres. Wilson's Message to Congress, According to Conjecture in Washington.

Washington, D. C., Nov. 22.—President Wilson will indicate in his annual message to Congress, which he is now writing, how, in his opinion, the money necessary to provide for the national defense, as proposed by the administration, may be raised. This was indicated at last night's conference between the president and Representative Fitzgerald of New York, chairman of the House appropriation committee.

The president will lay aside all other work this week in order, if possible, to have the message in the hands of the printer before Thanksgiving.

BURY CHICAGO HOBBO.

Who Was Hero of Atlanta Girl's Morbid Fancy.

Chicago, Nov. 22.—The body of the unidentified hobo which served for a time as that of Dr. Aloysius Henkel, the hero of an Atlanta girl's morbid fancy, was buried with ceremony Saturday. Over the body a sermon preaching charity to the unfortunate of the world was preached at the cathedral of St. Peter and St. Paul. A pinched little bouquet of chrysanthemums, roses and geraniums lay upon the coffin. It was a gift from hobbos now in Chicago. Hobbos, headed by Jeff Davis, president of the hobbos' union of America, were the pallbearers. Expenses are said to have been paid by the girl's family.

GIRLS IN RED SASHES.

Acted as Bearers at Hillstrom's Funeral at Salt Lake City.

Salt Lake City, Utah, Nov. 22.—Six Swedish girls, including one said to have been Joseph Hillstrom's sweetheart, acted as pallbearers at his funeral services here yesterday. Each girl wore a red sash, which was attached to the casket when the body was taken to the depot and sent to W. D. Hayward at Chicago. There was no prayer and no religious ceremony.

The execution was strongly condemned by workers of the Industrial Workers of the World, who spoke. One speaker declared the authorities of the state "would soon have cause to remember the day they took Hillstrom out and shot him."

I. W. W. songs, some of them written by Hillstrom, were sung as the procession passed through the street.

MONTPELIER

Hopes of Championship Football Game Go A-glimmering.

Hopes entertained by local football fans that a championship game between Montpelier and Rutland high school elevens might be arranged for this week at Rutland were destroyed yesterday when it became known that Principal E. S. Abbott, after a conference with Coach Frederic Edwards, had decided that the local team's season ended two weeks ago and that it would be out of the question to consider a game with the Marble City representatives. Rutland high offered to give a \$50 guarantee and as this would not quite pay the expenses, several local fans offered to pay the difference and Coach Dole of the seminary team informed Captain Mack that he would have a squad out this week to give the high school practice. A former Dartmouth college halfback volunteered to assist in rounding the team in shape but the decision of Principal Abbott puts the game out of consideration.

The unpleasant experience of being suddenly dropped into the ice cold water of North branch river was the lot of a carpenter employed in the building of the new bridge on State street early Sunday morning. The man was working on the staging which is hung by wires from the girders and the staging suddenly gave away, allowing the unsuspecting man to fall into the water several feet below. He climbed out easily, the water being only a few feet deep but he tarried not long after gaining the bank and made with all speed for his room to put on some warm and dry clothes. He was rather fortunate not to suffer injuries as his head and shoulders struck the water first.

Meri Howard, employed in the educational department at the State House, has gone to his home in Greensboro to spend Thanksgiving.

Miss Francis Goss returned to-day from Rutland, where she made a brief visit with friends.

Peter Gonyo, who has been visiting his sister, Mrs. John Mury, for a few days, left last evening for Batavia, N. Y., where he will be associated in business with his brother.

Miss Marion Collins has returned to her home in Burlington, after making a week's visit in the city as the guest of Mrs. Margaret Mack.

Mrs. James Brock returned this morning to her home in Morrisville, after visiting her daughter, Mrs. Fred Debarre, who is at Boston hospital. The latter's condition is improving daily.

Frank G. Cross, conductor on the Montpelier & Wells River railroad, captured a 300-pound buck with 11 points, in the edge of Groton last Friday. The animal was secured so far in the woods that before the hunter could obtain assistance to drag out his game it was dark and Mr. Cross was obliged to leave the deer in the woods all night. On the following day it took four men from 8 a. m. to 1 p. m. to get the deer where it could be reached by team. Mr. Cross has the distinction of bringing in one of the largest and handsomest deer ever brought into Montpelier.

PLOTTERS GET
SHARP WARNING

Told by United States That
They Will Be Searched
Out

STATES ARE URGED
TO LEND A HAND

Unusual Statement Is Issued
by Attorney-General
Gregory

Washington, D. C., Nov. 22.—Official notice of the United States government's intention to employ all its resources in running down and punishing those responsible for factory explosions, intimidation of labor and other acts of violence against American industries is coupled in a statement issued last night by Attorney General Gregory to be equally vigorous in dealing with lawlessness beyond the reach of federal statutes.

"Information indicating attacks upon lawful American industries and commerce through incendiary fires and explosions in factories and other acts of violence," says the statement, "has so often developed during the past few months as to demand searching investigations and prosecutions. The department of justice will continue unrelentingly to investigate all such acts and prosecute all developed violations of federal statutes, seeking indictments under the federal law prohibiting the interstate transportation of explosives, the Sherman law, the law relating to conspiracy to commit an offense against the United States, and the laws relating to crimes on ships and on the high seas.

"Because, however, of our dual form of government the federal criminal laws are extremely limited in their scope. Many crimes of violence, such as arson, malicious destruction of property, etc., can in general be punished in the federal courts only when committed where the United States has special jurisdiction.

"It follows, therefore, that such attempts to commit and destroy American industries must usually be prosecuted by state authorities.

"These conditions, so destructive to the commerce and labor of the United States, require vigorous action on the part of all agencies of the state and federal governments. It is, therefore, to be earnestly hoped that state officials will be equally active.

"I have instructed the agents of the department of justice, whenever they discover evidence of violations of state criminal laws, to place the evidence at the disposal of the local state officials, and I assure that such officials will cooperate with all information tending to show the commission of federal crimes."

There have been various official intimations during the past few days of the government's purpose to be more than ever active in seeking out offenders against the neutrality and criminal laws of the United States by agents or sympathizers of European belligerents. A recent department of justice statement told of plans for further investigation of the activities of Austrian Consul General Von Nuber, at New York, and his associates, and said that information had been obtained which probably would lead to additional indictments for passport frauds.

The non-action of state authorities particularly in cases of incendiary fires, has been commented upon here, and official action there must be close cooperation between state and federal officers, and labor leaders as well, before the lawlessness can be suppressed.

DARTMOUTH COLLEGE
PRESIDENT RESIGNS

Dr. Ernest Fox Nichols Is Going to Yale as Professor of Physics After Six and One-half Years as Head of Hanover Institution.

Boston, Nov. 22.—The retirement of Dr. Ernest Fox Nichols from the presidency of Dartmouth college at the close of the present college year was announced by the board of trustees yesterday. President Nichols has accepted an invitation to a chair of physics at Yale, thus returning to a field that in the past, he told the trustees, had gratified his every ambition and which he left reluctantly to accept the call to Dartmouth six and a half years ago.

The resignation was tendered at a meeting of the trustees held here last Friday and was accepted at the time with an expression of deep regret.

In their statement announcing the resignation the trustees said that it was not a complete surprise as it had been known for some time that the world of physics was seeking to induce Dr. Nichols to return to a field where he was widely needed.

President Nichols had held professorships at Colgate university, Dartmouth and Columbia before he entered upon the presidency of Dartmouth upon the resignation of Dr. William J. Tucker in 1908.

SEVENTY BUILDINGS BURNED.

And One Baby Was Killed in a Small Canadian Town.

Quincy, Nov. 22.—One child was killed and seventy buildings were burned in a small town in Canada, near here, were made known by a fire which swept that village yesterday. Seventy buildings, including five houses, were destroyed. The loss is estimated at \$200,000. The fire is believed to have started in a store on the south shore of the Chaudiere river, which acted as a barrier to the spread of the flames to the north side.

DISAPPOINTED SUITOR
KILLED HIMSELF

Samuel W. Phillips of Lower Waterford Had Planned to Marry Bethlehem, N. H., Girl But She Decided to Be a Nurse.

Lower Waterford, Nov. 22.—Despondent over a love affair, Samuel W. Phillips, aged 24, the son of Mr. and Mrs. Charles R. Phillips, well-to-do farmers of this place, ended his life yesterday by shooting himself in the temple with a 22 calibre pistol. The young man left the house after breakfast and, upon hearing a shot, his mother rushed into the yard and found him near the garage with his head lying in a pool of blood. Dr. R. G. French of Concord was hastily summoned, but the young man only lived two hours. He was the only child and had spent his entire life on the home farm. He was educated in the public school of this place and was known as a young man of good habits. He was a member of the Congregational church and the Modern Woodmen of America. The funeral will be held at the home Tuesday and burial will be in the cemetery at Upper Waterford.

According to the young man's parents, this act was the outcome of a disappointment in love. They claim Samuel was engaged to a 19-year-old girl, Howland of Bethlehem, N. H., whom he met while visiting relatives at that place. They kept company for about a year, and according to Mr. Phillips, were to have been married last October. All arrangements were made for the wedding when Miss Howland decided to enter a hospital at Littleton, N. H., for training as a nurse and the proposed wedding was called off on this account. So far as Mr. and Mrs. Phillips know there was never any quarrel between the two and they were not aware of the fact that the young man had brooded over a great extent over the estrangement. He had acted in normal manner and his suicide was a distinct surprise to them.

TERRIBLY MANGLED,
LAY 6 HOURS IN COLD

Frank Burns Was Run Over by Train on Which He Was Stealing a Ride, and He Is in Hospital in Burlington.

Burlington, Nov. 22.—After lying six hours in a ditch a few rods from the North River station with both legs crushed above the ankles and his right arm crushed in the elbow as the result of a fall from a car, the body of a train upon which he was riding, Frank Burns, an itinerant bridge builder, was brought to this city yesterday. His name is on the dangerous list at the Mary Fletcher hospital.

The story of Burns' experience is a shocking one. He was stealing a ride to this city, where he hoped to obtain employment, when he fell from his place between the cars. He lost consciousness for a few moments but says he recovered his senses in time to see the tail-light of the train disappear round the bend.

He made a futile effort to gain his feet and realizing the impossibility of this, dragged himself to the side of the railroad embankment and allowed himself to roll into a ditch which was filled with several inches of water.

The accident occurred at 1 o'clock Sunday morning and in this pitiable plight he remained for six hours. At 7 o'clock Elmer Craft of North Hero heard his cries and found him.

Burns was carried to the station and Dr. Branch was summoned. The doctor found that instant action was necessary and amputated the right arm at the elbow without administering an anesthetic. Burns was fully conscious during the operation but gave no indication of pain.

The victim was brought to this city on the noon train. The doctors found that although both legs were badly crushed, the main arteries had not been severed. The large arteries in his arm had been cut, however, and the only thing that saved him from quickly bleeding to death was the action of the cold temperature of the air and water, which clotted the blood and checked the flow to some extent.

One of the most shocking features of the affair was related by Burns at the hospital. He said that during the night a man had passed along the track above him and had refused to heed his appeal for help. It is thought that perhaps Burns in a semi-delirious state of mind might have imagined this incident.

The injured man said that he had two brothers, one in Springfield, Mass., and the other in Malone, N. Y. He also had a sister but did not give her name or address. Burns himself has no fixed home. He said that he had been working recently in Readsport. He is 37 years old.

It was said at the hospital that Burns could not live. Even were it possible for him to survive his terrible injuries it was said that pneumonia would undoubtedly result from his long exposure.

SLASHED IN QUARREL.

Center Rutland Man Seriously Wounded—An Arrest Made.

Rutland, Nov. 22.—As a result of a fight at Center Rutland Saturday night at midnight, Frank Sadowski is confined to his room with several bad cuts, one of them a scalp wound. Sunday morning Deputy Sheriff D. A. Barker arrested another Pole by the name of John "Saggy" and he was placed in the county jail for safekeeping. He will probably be charged this week with assault with intent to kill.

The trouble started on a bar and it was apparently over the loss of \$2. Those said to have been in the party included Sadowski, Sadowski, Sadowski, Sadowski and John Sadowski. After leaving the bar the men stood in the vicinity of the store and talked loudly, the man who bore the wound refusing to return to it. He ended in a fight and either a broken bottle or a knife was used.

Dr. F. E. Quigley, who was summoned, was unable to say whether the cuts were made with a dull knife or a broken bottle. The large arteries in the neck were cut and the man was bleeding freely. In connection with the Center Rutland authorities, Sadowski was arrested. He was taken to the hospital where he is now lying. His hands and clothing showed signs of blood. It is said another of the brawlers was injured.

SEVEN MEN DROWNED.

When Their Motorboat Capsized in a Squall.

New York, Nov. 22.—Five men, two of them brothers, were drowned off Rockaway Point yesterday following the capsizing of their 24-foot motorboat in a squall. The others of the party kept afloat until rescued.

The stalling of the engines of the little craft owned and piloted by Capt. Daniel Lorenz, placed it at the mercy of the strong wind and tide. The boat began to fill with water and the two lifeboats on the boat were given to William Weber and Henry Ross, who could not swim. A huge wave suddenly overturned the boat and Lorenz, John and Charles Ullinger, Joseph Hoffman and Albert Rosen were drowned. Weber and Ross were rescued by another motorboat.

ENGAGED AS PRINCIPAL.

J. Fletcher Sears of Stamford, Conn., for People's Academy.

NASHUA MILLS
RE-OPENED

Great Display of Police, but
There Was No Dis-
turbance

MILITIA COMPANY
WAS PREPARED

Two Plants Resumed Business, with a Part of the
Workmen Returning

Nashua, N. H., Nov. 22.—No disorder attended the reopening to-day of the plants of the Nashua Manufacturing company and the Jackson Manufacturing company, which closed more than six weeks ago by reason of the strikes of 4,000 operatives. Two hundred police officers were on duty and a militia company was in readiness at the armory; but there was no disturbance.

Officials of the companies said that 1,200 returned to work at the Nashua Manufacturing company's plant and 500 at the Jackson company's plant. The strike committee said the number was much less.

FIRE GUTTED ST. ALBANS STORE.

Loss Early Sunday Morning Is Over \$1,500.

St. Albans, Nov. 22.—Fire, which was discovered about three o'clock yesterday morning in the grocery store and meat market of Augustin Guay, gutted one side of the building, causing a loss estimated at from \$1,500 to \$2,000; which is covered by insurance. It is not known how the fire started, but it is thought possible that some one left a lantern burning in the room where the drivers of the delivery teams kept their coats and caps and that the blaze started there. There was considerable damage from smoke to the tenement of the second floor occupied by Frank Ducharme and family. Mr. Ducharme had no insurance.

Mrs. Ducharme was awakened by the smell of smoke and at first she and Mr. Ducharme thought it came from a lamp they had left burning. Soon they discovered that the smoke came from below and Mr. Ducharme notified Mr. Guay, who at once turned in the alarm from box 33.

The firemen were on the scene promptly but found the inside of the store a roaring furnace. They turned on four streams of water and soon had the fire under control.

The building is a small wooden structure, one and one half stories high. It is sheathed in hard pine and so burned fiercely.

25 STITCHES TAKEN

To Close Wounds Which Were Received at Brattleboro Christening.

Brattleboro, Nov. 22.—Following a Polish christening yesterday afternoon, Charlie Conradsch is in the Memorial hospital with about 25 stitches in his face and neck. Two other Poles are in the police station, where it was said last night that they were too intoxicated to give their names.

The stitches were taken by Dr. Harry P. Greene to close wounds which he thinks were made by a knife. The fight took place about 3 o'clock near the junction of Elliot and Church streets, in full view of the public, and Deputy Sheriff Frank Wellman was soon on the scene. The wound in Conradsch's neck laid bare his jugular vein. This is the second row over the same christening.

DEATH OF RUTLAND WOMAN.

Miss Sarah Piper Was Teaching School in Beverly, Mass.

Beverly, Mass., Nov. 22.—Miss Sarah Piper, the Beverly schoolteacher who died yesterday of blood poisoning at the Homeopathic hospital in Boston, had been teaching in this city several years. She entered the hospital in Boston a week ago suffering from a sore toe, from which it was supposed she would recover after an operation. She was 33 years old.

She was a native of Rutland, Vt., was formerly a teacher in the Beverly farm school, but of late taught in the South school here. She was president of the South Branch Union Chapel association, and of the Eastern Star at Rutland, Vt.

The funeral will take place Tuesday afternoon at Rutland, Vt., from the home of her mother, Mrs. W. G. Piper.

FIVE MEN DROWNED

When Their Motorboat Capsized in a Squall.

New York, Nov. 22.—Five men, two of them brothers, were drowned off Rockaway Point yesterday following the capsizing of their 24-foot motorboat in a squall. The others of the party kept afloat until rescued.

The stalling of the engines of the little craft owned and piloted by Capt. Daniel Lorenz, placed it at the mercy of the strong wind and tide. The boat began to fill with water and the two lifeboats on the boat were given to William Weber and Henry Ross, who could not swim. A huge wave suddenly overturned the boat and Lorenz, John and Charles Ullinger, Joseph Hoffman and Albert Rosen were drowned. Weber and Ross were rescued by another motorboat.

ENGAGED AS PRINCIPAL.

J. Fletcher Sears of Stamford, Conn., for People's Academy.

Morrisville, Nov. 22.—Prof. J. Fletcher Sears of Stamford, Conn., has been engaged as principal of People's academy, in the office of Prof. E. G. Morrill, resigned, consisting of T. Brooks, N. B. Bennett, and L. L. Loring, who will begin his work with the opening of the winter term, about Dec. 1, in a graduate of Harvard college and has had 12 years' experience as principal of a high school.

BARRE CASE ON TRIAL.

Trustee of Bankrupt Estate of Cutler, Storer, Fay Co. Seeks to Recover \$1,000.

Washington county court convened at 9 o'clock this morning after the regular week-end recess, it being the first time this term that jurors were instructed to report at 9 o'clock. The civil case of J. J. Goodwin, trustee, in the bankrupt estate of Cutler, Storer, Fay company of Barre, against Barre Savings Bank & Trust company, was taken up. The drawing of the jury was completed shortly after 10 o'clock.

The jurors called as follows: J. W. Kerr of Waterville, C. E. McNamara of Northfield, M. L. Prescott of Waterbury, J. N. Bartlett of Moretown, Harold Thompson of Warren, J. W. Batchelder of Plainfield, S. R. Waite of Woodbury, H. L. Russell of Cabot, O. A. Lovett of Warren, G. J. Willey of Berlin, Charles Pike of Marshfield and Wayne Denny of Roxbury.

The trustee seeks to recover \$1,000 and bases the claim on two items, the specifications setting forth that the defendant collected money on the Bowyer and Willett monumental contracts which should have gone to the plaintiff on May 1, 1915. The Bowyer contract involved \$365 and the Willett contract \$255. S. Hollister Jackson represents the plaintiff and Attorneys H. C
